<https://akbarali.co.in>

Bangalore, India

EXPERIENCE

Senior Full Stack Developer

Mobinius Technologies Pvt Ltd

📅 2011 - 2019 (Current) 📍 Bangalore

Frontier Markets Consulting

Responsible for building multiple android applications by leading a team of three.

- Had to deal with extreme slow network conditions
- Language localization
- Tailored for the end user

Cohesion IB

Developed a nodejs application leveraging graphql and graph database Neo4J

- Used Azure deployment pipeline to automate process
- Graph Database and GraphQL for faster responses
- Used Azure Service Bus for 'pubsub' mechanism

Dr Reddy's Laboratories

Handled from development to deployment of multiple applications with microservices

- MxGraph library was used to draw dynamic charts
- Microservices with node.js redis mongodb & docker
- Integration with third party services like DocHub

Ed Controls

Node.js application built with couchdb for offline feature. Web application written in vanilla.js

- Extensive use of AWS and docker
- Couchdb for graceful sync that enables offline mode
- Used Azure Service Bus for 'fire and forget' function

TECHNOLOGIES

Frontend

ES 6 ReactJS React Native Redux

Backend

Nodejs Python GraphQL

Databases

Neo4J MongoDB Redis Elasticsearch

CouchDB

Testing

Jest Supertest Chai

Ops

AWS Docker Jenkins

CERTIFICATION

Fullstack Open (University of Helsinki)

Fullstack developer (<https://fullstackopen.com>)

Neural Networks & Deep Learning (Coursera)

Introduction to deeplearning (<https://www.coursera.org/learn/neural-networks-deep-learning>)

Core Elasticsearch (SpringPeople)

Elasticsearch Engineer (<https://www.springpeople.com/easticsearch-engineer-one-training-certification>)

EDUCATION

GNIIIT

National Institute of Information Technology, Bangalore

Bachelor's Degree in Physics

Calicut University, Calicut
